

The *revolutionary*  
solution for **faster**,  
**safer** installations

# The **hard work** is already done.

Pre-wired solar conduit systems proven to reduce time and wastage.

SolarFlex is a **revolutionary solution** exclusively designed and produced by PV Connections.

This **pre-wired flexible conduit** system removes the need to manually feed cables, enabling fast and easy solar installations.

Safe, fully compliant and self-extinguishing, **SolarFlex reduces installation time by up to 20%.**

Made in Australia to the highest standards, the SolarFlex one-piece fittings and ready-to-go conduit systems give you complete confidence in your installation. Fit once, knowing that safety and reliability is maximised, and risk and maintenance is minimised.

## Exclusive to PV Connections

PV Connections is redefining the Australian solar industry with our uncompromising focus on safety and quality. We take a smarter approach to solar installations, sourcing better products from around the world, and developing new innovations, like SolarFlex, to solve real industry problems. PV Connections makes your life easier and safer.

UV Resistant for enhanced durability

Made in Australia to the highest standards.

Fully marked and compliant to AS5033:2021

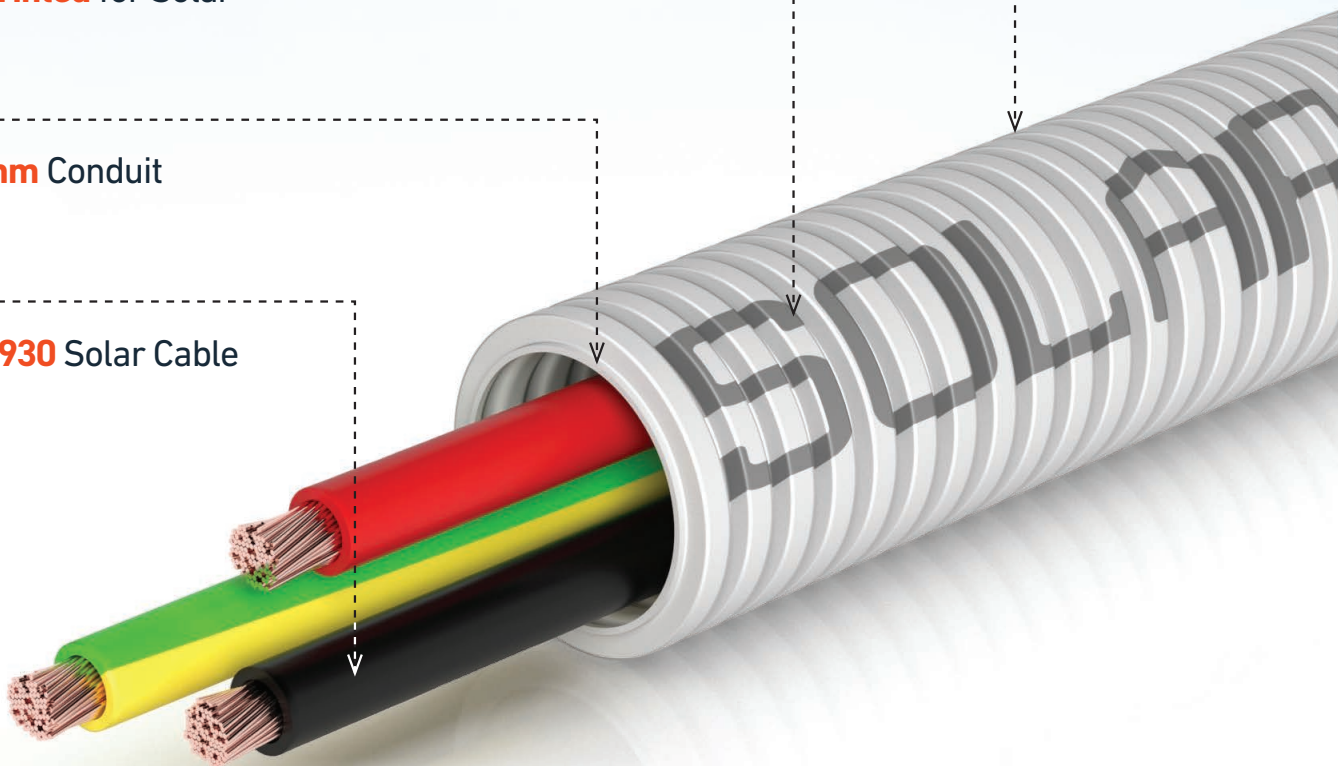

# Have **complete confidence** in your installation

**UV Resistant** for enhanced durability

**Pre-printed** for Solar

**25.0mm** Conduit

**IEC62930** Solar Cable

SolarFlex is estimated  
to reduce labour time  
by up to 20%

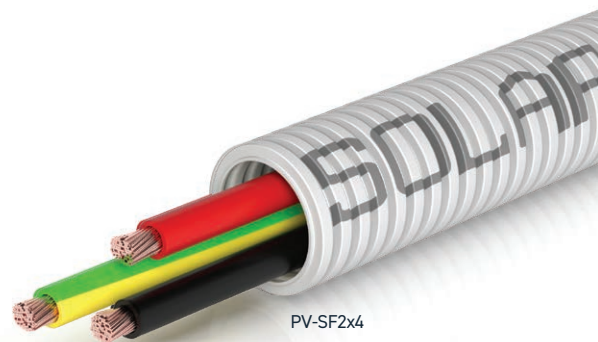

# Solarflex Conduit

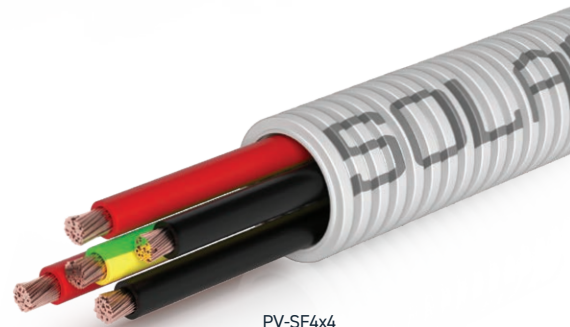

SolarFlex Pre-Wired Conduit is specially designed for Residential Installations

PART NO.	DESCRIPTION	LENGTH
PV-SF2x4	Solarflex 25mm HD UV Pre-wired Conduit 2 x 4mm +E	60
PV-SF4x4	Solarflex 25mm HD UV Pre-wired Conduit 4 x 4mm +E	30
PV-SF2x6	Solarflex 25mm HD UV Pre-wired Conduit 2 x 6mm +E	50
SFPV25/50M-NW	Solarflex 25mm HD UV Flexible Conduit	50

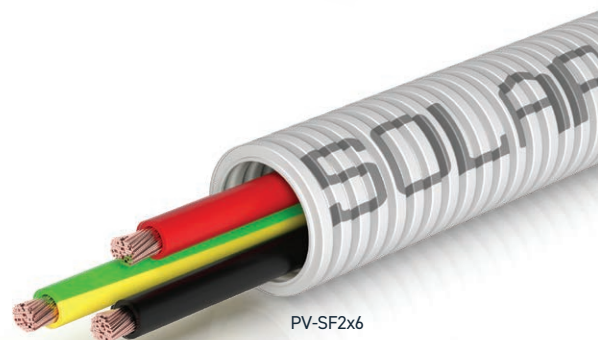

- Includes 4mm<sup>2</sup> and 6mm<sup>2</sup> IEC62930 DC cables plus a 4mm<sup>2</sup> earth cable
- Easily identify cores with numbered system
- Comes in 30m, 50m and 60m rolls for easy handling and to reduce wastage
- Fully marked and compliant with AS5033
- 25mm conduit suits all SolarFlex conduit fittings and accessories
- Pre-wired 2C+E & 4C+E Options
- Highly UV Resistant
- Heavy Duty
- Pre-printed for Solar

# Why installers and retailers *choose SolarFlex.*

Fast, easy  
installation

Pre-wired conduit eliminates the  
need for manual feeding

Made in Australia to the  
highest standards

Self-extinguishing

Fully certified and compliant  
with all regulations

High-ingress protection  
– IP67-rated fittings

UV Resistant for enhanced  
durability

Comes in 30m, 50m & 60m reels  
to reduce wastage

Heavy duty and flexible
